TABLE OF CHARGES AT THE MINTS AND ASSAY OFFICES OF THE UNITED STATES

As fixed by the Director of the Mint and approved by the Secretary of the Treasury
March 31, 1916.

TO TAKE EFFECT APRIL 15, 1916.

1. MELTING CHARGE:

On deposits of bullion a charge of \$1 shall be imposed for each 1,000 ounces of bullion or fraction thereof as shown by weight after melting, except in the case of uncurrent United States coin and mint-fine bars, for which no melting charge is made.

On deposits carrying nonmetallic material or separate particles of nonprecious metals, when the melting loss exceeds 25 per cent, an additional charge of \$1 for each deposit shall be imposed when the deposit weighs 150 ounces or less. On such deposits weighing over 150 ounces the charge shall be in accordance with the extra expense of the melting operations.

2. TOUGHENING CHARGE:

Deposits which fail to give concordant assays shall, at the discretion of the officer in charge, be subject to an additional charge equal to the cost to the Government for fuel, labor, and materials used in remelting and treatment by the deposit melter. Impure deposits which fail to give concordant assays on dip samples from the second melting shall be returned to the depositor and the additional expenses incurred in treatment collected.

3. WITHDRAWAL OF DEPOSITS:

Deposits may be withdrawn from the mints at Philadelphia, San Francisco, and Denver, and from the assay office at New York, subject to charges actually incurred up to the time of withdrawal. Deposits withdrawn from the minor assay offices and the mints at New Orleans, La., and Carson, Nev., shall be subject to the following charges, viz: Deposits valued at less than \$800, where extra toughening charges have not been incurred, \$2 for assaying and stamping each bar; on deposits of \$800 or over, such charges as have actually been incurred up to the time of withdrawal and \$2 additional for assaying and stamping each bar.
